Forecast for Tuesday 29 Mar 2022

Weather: A bright start in the west but cloudier in the east, but sunnier spells will develop across eastern parts by late morning. One or two showers are expected to develop during the afternoon but most places will remain dry. Then a dry evening with clear spells.

Chance of cloud-free hill tops above 800m: Close to zero in the east through the morning, otherwise around 75%.

Low Cloud and visibility: Patchy cloud around 300-450m over eastern hills at first soon lifting and breaking, otherwise cloud more occasional above 600-750m. Generally good visibility except in cloud, falling briefly in any showers, but rather hazy under cloud in the east through the morning.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling rather cold on the summits despite the sunshine and light winds.

Forecast for Wednesday 30 Mar 2022

Weather: Dry with clear spells through the early hours but cloud increasing through the morning bringing outbreaks of rain and, increasingly above 450m through the afternoon, snow. Drier clearer conditions are then expected to spread south through the evening.

Maximum wind: Variable less than 10mph through morning then becoming northeasterly 15-20mph in afternoon.

Chance of cloud-free hill tops above 800m: 20%. Chances improve from the north through the evening.

Low Cloud and visibility: Extensive cloud above 300-450m. Otherwise visibility good falling to several kilometres in rain and perhaps a kilometre or less in snow.

Temperature: **Valleys:** Around plus 3 or 4 at dawn rising to 8 Celsius by day
At 800m: Around plus 3 Celsius falling to minus 2 Celsius
Freezing level: Around 1100m falling to 600m through the afternoon and 300m or less in evening
